

# Paper 1 Exam Source Preview

Dissect one source at a time.

For each source:

- Identify the origin, purpose, value and limitations.
- Underline and define unfamiliar vocabulary.
- Highlight a phrase, sentence, or statement that reflects the main message (for an image, highlight the caption, title, or dialogue that reflects the main message).
- In another highlighter color, highlight any specific evidence that demonstrates why Italy, Germany or Japan sought to expand their empires.
- In your own words, summarize the text.

When one source is completely annotated, grab another source and go through the same process.
